

Brahma Teja Jampu

✉ brahmateja1512@gmail.com ☎ +91-8185865120 📍 Tenali, A.P-522201, India

EXPERIENCE

05/2025 – Present
Hyderabad, India

STEM Engineer

STEMx India

- Developed and launched hands-on STEM projects in robotics, aerospace, and 3D printing for K-10 students
- Served as a hybrid Engineer and Educator, turning complex technical prototypes into simple, hands-on lessons
- Managed the full lifecycle of new STEM teaching tools, from R&D and fabrication to successful classroom use
- Designed and grew a project-based STEM curriculum for grades 1-10, making advanced engineering easy to understand

06/2024 – 07/2024
Vadlamudi, India

Orientation Assistant

Vignan's Foundation for Science, Technology and Research

- Guided 00+ incoming B.Tech students, facilitating a smooth transition to university life
- Led orientation sessions on B.Tech curriculum, university regulations, and campus resources
- Served as a primary point of contact for student inquiries, proactively addressing concerns.
- Organized and conducted activities to build student awareness and community engagement

EDUCATION

09/2021 – 04/2025
Vadlamudi, India

B. Tech in Robotics and Antomation

Vignan's Foundation for Science, Technology and Research

07/2019 – 05/2021
Tenali, India

Intermediate

NRI Junior College

PROJECTS

Object and Shadow Contour Detection for Automated Manufacturing

Tools: Python, OpenCV, ICT, Raspberry Pi

- Developed an automated system to detect object and shadow contours in images
- Convert images into CNC-readable files for precision manufacturing

IOT Enabled 3D-Printed 4DOF Robotics Arm

Tools: 3D printing (PLA), Arduino, IC/T

- Fabricated a -DOF robotic arm optimized for industrial pick-and-place operations
- Integrated an ESP32 WiFi module to enable wireless control via a custom-built mobile application

Development Of Autonomous Mobile Robot For Indoor Navigation and Mapping

Tools: ROS, LIDAR, Python, 3D-Printing, Fusion 360, Raspberry Pi

- Developed AMR for Autonomous Navigation
- Implemented ROS for achieving Indoor Mapping and Navigation
- Created an Autonomous Mobile Robot, ensuring the Indoor environment
- Applied SLAM to analyze Cartographer, G-Mapping, and RTAB-Map

SKILLS

Programming Languages

Python, C, C++, SQL.

Embedded and IOT tools

Arduino, Raspberry Pi, Nvidia Jetson Nano, LIDAR

CAD Tools

AutoCAD, Fusion360, NX-CAD, TinkerCAD

Other Tools & Technologies

Ms Office, Latex, Canva

Robotics Software and Tools

ROS and ROS2, Webots, Robo Analyzer, MechAnalyzer, Gazebo

Automation and Manufacturing

FDM and Metal 3D Printing, CNC, PLC, CMM

Mathematical & Statistical Tools

Matlab, PowerBI

Non-Technical

Digital Marketing, Public Speaking, Public Relations, Event management, Leadership

PATENTS AND PUBLICATIONS

IJERCSE, Vol. 10, Issue 11, ISSN (Online) 2394-2320

[1.1] Chilaka.Lokesh Jaya Rao, Jampu. Brahma Teja, Kuta. Venkata Durga Pravalika

Languages

English

IELTS-B2 CERTIFIED

TELUGU

Advanced

HINDI

Intermediate

GERMAN

Beginner

LEADERSHIP EXPERIENCE

Vignan's Foundation for Science, Technology & Research

Secretary , Core Organizer & Lead - PR, Marketing and Publicity

CERTIFICATIONS

Kodacy Virtual 15-Day Internship on ROBOTICS

NPTEL Online Certification: Mathematical Modeling of Manufacturing Processes

NPTEL Online Certification: Metal Additive Manufacturing

PRODUCT DESIGN USING AUTODESK FUSION 360

Artificial Intelligence Foundations: Thinking Machines

Problem Solving (Intermediate) by HackerRank

Declaration
